**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Wolinsky (Reg. 46,413) on 9/29/2008.

The application has been amended as follows:

**IN THE CLAIMS:**

Claim 15, line 6: "the weighted values", has been replaced with --the weighted signal interference, code usage and channel spread values--.

Claim 18, line 6: "the weighted values", has been replaced with --the weighted signal interference, code usage and channel spread values--.

Claim 21, line 6: "the weighted values", has been replaced with --the weighted signal interference, code usage and channel spread values--.

2. The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a system and method for optimizing uplink channel power control gain based on channel sensing and the slot separation between a beacon channel and the allocated slot channel within the UL frame of the WTRU.

Applicant's independent claim 1 recites, *inter alia*, a method of assigning time slots with a structure as defined in the specification (pages 8 – 11) including a summer that sums together a weighted signal interference, a weighted code usage and a weighted channel spread values associated with the particular WTRU to generate a first combined score; determining a slot assignment rank for the particular WTRU by comparing the first combined score to other combined scores associated with other respective WTRUs; and assigning a second time slot to the particular WTRU based on the slot assignment rank. Applicant's independent claim 1 comprises a particular combination of elements, which is neither taught nor suggested by the prior art.

Accordingly, applicant's claims are allowed for these reasons and for the reasons recited by applicant in the amendment filed on 6/27/2008.

Regarding claims 15, 18 and 21, the claims are interpreted and allowed for the same reason as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
